## **1. Introduction**

- a. This Annex provides an example of a training testing plan for formal basic demining training for future deminers.
- b. Mine Action Organisations should develop training testing plans (or similar) for formal mine action relating training in Western Sahara.

**Training:** Formal basic demining training for future Deminers – 11-15 February 2008

**Training objective:** Operate and maintain current (A and B) metal detectors safely (see Annex A, 1.5)

**Date of test:** 15 February 2008

**Time for session:** 8.00 – 09.00

**Location:** Mine training field at mine action training centre

**Number of trainees:** 25

Training Objective	Conditions for Testing	Result Statement	Remarks
Operate current (A and B) metal detectors safely	<ol style="list-style-type: none"> <li>1. In a practical test: conduct mine clearance drills – specify a realistic time per trainee per metal detector.</li> <li>2. Given:               <ol style="list-style-type: none"> <li>a. Metal detector complete with</li> <li>b. Batteries and test piece (if required).</li> <li>c. Demining toolkits complete.</li> <li>d. One metre wide clearance lane laid out 10 metres long containing five relevant metallic targets (accurate stimulants or FFE mines with simulated detonators).</li> <li>e. No more than the time specified per metal detector.</li> </ol> </li> <li>3. Without access to reference material.</li> </ol>	<ol style="list-style-type: none"> <li>1. Safely operate each one of the two current metal detectors by demonstrating the ability to:               <p><b>Criteria:</b></p> <ol style="list-style-type: none"> <li>a. Assemble and prepare the metal detectors for operation.</li> <li>b. Carry out the one-person clearance drill to locate all five metallic objects in the lane.</li> <li>c. Carry out the signal excavation drill to uncover the objects.</li> <li>d. Mark the location if a mine or metal signal is located.</li> <li>e. Operate each of the detectors without breaching safety.</li> </ol> </li> </ol>	<ol style="list-style-type: none"> <li>1. Practical testing on the operation of current metal detectors is carried out at the same time as testing on the use of current mine clearance equipment i.e. training objective 1.6.1. One day is allocated for this test.</li> <li>2. Final practical test – Conduct mine clearance drills.</li> </ol>

	4. Without assistance.
